## One day Training Class

**September 2010 / 8:30am – 5:30pm**

The Fiber Optics Institute (FOI) provides a comprehensive fiber optics training program for physical security technicians. Attendees will learn and practice all aspects of installing, terminations, testing, and troubleshooting fiber optic links to be used for physical security applications such as CCTV and Access Control.

The unique format of the FOI program provides maximum training with minimal cost and classroom time. Students will complete a 12-hour online course before the Certification Lab, gaining the knowledge of specific fiber optic devices and terms.

At the end of the session attendees complete a standardized test to receive the Certified Fiber Optic Technician (CFOT) rating from the Fiber Optic Association. The Fiber Optics Institute has trained over 800 technicians, and is presented by Slayton Solutions Ltd., the industry leader in networking and fiber optic training.

### ADI New Orleans, LA

2747 Edenborn Avenue, Metairie, LA 70002  
Phone : 504.780.9173

Sept 7

Register by Sept 2 to ensure your space!

8:30am – 5:30pm

### ADI Raleigh, NC

2741 Noblin Road, Raleigh, NC 27604  
Phone : 919.872.5556

Sept 9

Register by Sept 6 to ensure your space!

8:30am – 5:30pm

Class Size: 30 Students

COST: **\$595**

## Content Areas Covered:

- Optical budgets
- Connectors
- Splicing
- Fiber link testing
- Troubleshooting
- OTDR Testing
