

# FETI Course Announcement

## New Fire Extinguisher Service and Maintenance Course + Hose Testing

LSU FETI, at the request of the Louisiana State Fire Marshal's office, is now offering a 16-hour course developed for those working in the portable fire extinguisher industry. The class has been developed to teach students the basics of maintenance and servicing of portable fire extinguishers and occupant use hoses in accordance with all applicable local, state, and federal laws and standards. Upon completion of the course and successfully passing the test, students will be able to present their certificate to the licensing division at the Louisiana State Fire Marshal's office for appropriate licensure.

The class will be held over two consecutive days and will include both classroom and practical training. Students will be shown the proper techniques for all types of extinguisher servicing including hydrostatic testing. Also covered will be proper techniques in hose testing.

To register for this course, contact Jessy Hutchinson at 225-334-6300 or email [Jhutch2@LSU.edu](mailto:Jhutch2@LSU.edu). For questions about curriculum, contact Eddie Tessmer at 225-334-6341 or email [ltu1996@lsu.edu](mailto:ltu1996@lsu.edu)
