

## About The Course & Instructor

This course aids individuals in preparing for their NICET Fire Alarm Certification, which is required by the SFM for Commercial Fire.

Consisting of 16 hours of classroom instruction, this course covers technical and non technical subjects included on both the Level I and Level II NICET Fire Alarm Certification Exams. The design of the course follows that of the new NICET CBT exams given at Pearson Vue Test Centers throughout the country.

This course is eligible for 1.6 CEU's towards your license renewal.

The course is taught by Greg Kessinger, a professional instructor who is a 30-year veteran in the fire alarm industry. His engaging presentation provides a relaxed learning environment, where students' questions can be answered and individual attention provided.

Fax: 337-886-7284

## Important Details

- Full attendance required both days for CEU certificate.
- Full payment must be made prior to the start of class.
- No refunds for cancellations after 4-17-12 or NO SHOWS
- Class starts promptly at 8AM both days.
- If class is cancelled due to low enrollment, full refunds will be given. Cancellations and Confirmations will be made via E-Mail so a valid email address is required when registering.

### CLASS FEES:

**LLSSA Members:**

\$450

**Non-Members:**

\$600

## Who Should Attend?

- Designers of commercial fire alarm and detection systems.
- Individuals preparing for NICET Certification in the field of Fire Alarm Systems
- All individuals involved in the sale, installation and testing of automatic fire detection and fire alarm systems.

## Any Prerequisites?

- It is recommended that attendees have a minimum of two years of work experience in the fire alarm field, or equivalent knowledge
- Students should have a basic working knowledge of what comprises a fire alarm and detection system

## What do I bring to class?

- In a word - nothing!
- A 2007 Edition of NFPA 72 will be provided you as part of your fees.
- A class binder, study materials and other handouts will be provided.
- Even those in the fire alarm industry 20+ years have left this class with new knowledge, so come ready to learn!
